# SERVICE INFORMATION

## No. SI-AE50R-004

### 1. BASIC INFORMATION

#### 1.1. SUBJECT

New revision index for part numbers

#### 1.2. ENGINES AFFECTED

Engines affected: AE50R Series

Serial numbers affected: All

#### 1.3. REASON

With introduction of an improved internal process for traceability reasons, Austro Engine GmbH changes the revision index for part numbers.

#### 1.4. INFORMATION

The currently used revision index for parts and appliances is as follows:

Expiring revision index:

Example: R1A-62-200-000-**004**

This revision index is superseded by the following system:

Issue Date			Rev. No.	Revision Date				Page
27	SEP	2016	---	---	---	---	1-2	

New revision index:

Example: R1A-51-000-000-**CK7**

**NOTE:** Austro Engine GmbH does not convert the existing revision index into the new revision index system. Therefore each part is given revision index "AA1" initially and modifications thereafter are following the new revision index system.

All relevant technical information, which content is referencing to revision indices, is updated accordingly. In case of doubt or questions, the after sales department of Austro Engine GmbH has to be contacted.
